# **Safety Data Sheet**

## **IDENTITY**

Part Number: Superlite Asbestos free – OIL-220  
Identity: Compressed rubber – bonded organic fiber Gasket sheet  
Description: Organic fiber, rubber bonded & vulcanized under pressure  
Other Generic Names: Non-asbestos sheet, compressed non-asbestos gasket sheet, non asbestos gasket sheet

## **SECTION I**

**IMPORTER'S NAME:** CALVO SEALING, S.L

## **SECTION II- INGREDIENTS AND HAZARD % HAZARD DATA**

Rubber binder (NBR) < 30 No TLV established  
Organic fibers < 25 Not to exceed 10mg/m<sup>3</sup> (Nuisance dust)  
Inert in organic fillers < 45-85

Note : These materials are bonded with a vulcanized rubber matrix. No Precautions needed unless material is to be subject to a dust-producing process

## **SECTION III- PHYSICAL DATA**

Water Solubility – Insoluble  
Specific Gravity – 1.7-1.9  
Odor – None  
Appearance Thickness – Flat or rolled sheet ranging from 0.5mm through 3mm in  
Color is RED

## **SECTION IV-FIRE AND EXPLOSION DATA**

Combustibility of this material results from the rubber binder, Toxic gases, including HCL, Carbon Monoxide and various Nitrogen Oxides may be released in a fire. Fire Fighters use a self-contained breathing apparatus when fighting involving this material. Extinguishing agents may be Water or Foam.

## **SECTION V- REACTIVITY DATA**

This is stable material under normal use, handling, and storage conditions. Shelf life is measure in years. In service avoid incompatible media. The importer can provide chemical resistance data upon Written Request.

## **SECTION VI- HEALTH HAZARD INFORMATION**

Ignition of this material may result in the releases of toxic gases  
Drilling sawing sanding or other methods should not create excessive amount of dust.

## **SECTION VII DISPOSAL PROCEDURES**

Dispose of in a sanitary landfill in accordance with federal, state, and local regulations of country

## **SECTION IV-OTHER PRECAUTIONS & COMMENTS**

None,
